

Dissertation Demystified

LAEA FRAMEWORK

LEARN

- Our 12-module online course will take you by the hand through every aspect of the dissertation process.
- Each module and lesson consists of a how-to video lecture that teaches you the skills and exact steps to develop a topic, conduct a literature, design a feasible study, etc.

APPLY

- After lesson's how-to lecture, you will complete an activity in which you apply the skills taught and complete an element of your dissertation.
- We have developed activities that develop your academic and research skills and that coach you in writing a part of your dissertation.

ENGAGE

- Dissertation Demystified provides you three ways to engage with our community for feedback and support:
 - After you complete a lesson activity, you will submit it for detailed feedback from our coaches.
 - You will also share your work in Skool with your peers for additional feedback and support.
 - You also have access to weekly office hours where you can receive guidance on our modules and activities, review your latest dissertation draft, or discuss feedback from your chair/committee.

ADAPT

- After you engage with our community and receive feedback, adapt the work you completed applying the feedback you received.
- We will also coach in how to ensure your work aligns with your university's template or rubric requirements.
